

Sequel To Love For Doll

Maternal Instinct Greatly Developed by
Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wondrous of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best efforts can provide. This is accomplished with a wonderful remedy known as Mother's Friend. An external application so penetrating in its nature as to thoroughly lubricate the myriad network of cords, tendons, nerves and muscles just beneath the skin of the abdomen.

It relieves the tension, prevents tenderness and pain at the crisis, and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the form is thus preserved.

It should be applied daily, night and morning, during the period of expectancy. By regular use it enables the abdomen to expand without the usual strain when baby is born. Naturally, pain and danger at the crisis is less.

You will find Mother's Friend on sale at every drug store. It is prepared only by the Branded Regulator Co., Lamar Bldg., Atlanta, Ga. They will send you an instructive "Motherhood Book" without charge. Write them to mail it to you. Do not neglect for a single morning or night to use Mother's Friend. Obtain a bottle from your druggist today by all means, and thus fortify yourself against pain and discomfort.

Says your body must have a Housekeeper

An eminent Specialist says: "The liver is the housekeeper of health. It controls those functions which carry away the health-wrecking, disease-breeding toxins from the body. If it is allowed to fail in its work, sickness and misery are sure to follow."

Watch for the signs which indicate, quite plainly, that the liver is not working right. Coated tongue, fetid breath, headache, constipation and many other symptoms should warn you that the liver is calling for help.

There are certain well known herbs, fruits and plants that are liver aids. The most effective of these have been combined with Pepsin, and are known as "333" Liver Tonic. It is mild in action, yet cleanses quickly and thoroughly and is a splendid tonic to the liver, stomach and bowels.

Everybody suffers at times from liver sluggishness and resultant constipation. Many have found "333" Liver Tonic a helpful and satisfactory preventive. It can be bought, in big fifty-cent packages, at Dillehay Brothers or other good drug stores. Readers are advised to try a package under the manufacturer's guarantee of satisfaction or money refunded.

WOMAN'S PLACE IN INDUSTRY

According to Observations Made by an Expert, It Bids Fair to Become Permanent.

Woman's invasion of industry bids fair to put a crimp in the marriage lists, according to some information which has recently been gathered by the department of labor.

It has long been an accepted fact about women as workers that their average working life is only five years, and seldom exceeds seven. This working period was considered to be merely an interlude between school and marriage.

These late investigations have put a decidedly new face on the matter. Whether it is because women are becoming more fond of freedom or because the rewards of industry are for them becoming higher, or because of the rising price of keeping house or the growing reluctance of the male to marry, the fact remains that many women are found who have had ten or more years of industrial experience, and still show no tendency to wed.

Then, too, that versatile woman who both marries and holds her job is on the increase. It is to be hoped that she, rather than the bachelor working woman, is the coming type. But the significant thing is that the majority of women now entering industry are entering to stay.

Since the war women have been pouring into industries that formerly employed only men; the number of women in industry has increased by one million during the past year. Women are running elevators, clerking in drug and grocery stores, carrying telegrams, operating wireless instruments, driving trucks, making munitions, and handling freight in railroad yards. All these things they are performing efficiently, albeit so complacently, that people are already beginning to consider the industrial status of woman after the war. As an important and permanent figure in our industrial life, she requires special study.—Frederic J. Harkin, in Rochester Union and Advertiser.

Fifth Booster Edition Of Daily Out Today

Will Be Distributed All Over The Muscle Shoals District
—Has Attracted Much Favorable Attention.

The fifth Booster Edition of the Daily, published under the auspices of the Albany Board of commerce and Decatur Boosters Club, and made possible by enterprising merchants and professional men of both cities, is out today.

One thousand extra copies are to be distributed all over the Muscle Shoals district and much good will

result. Already several families have been located in both Decatur and Albany and merchants have derived direct benefit in the way of orders from the Tri-Cities.

The Booster Edition was planned to cover three months or six distributions of 1,000 each, and the success of the venture is now assured.

The Daily takes this occasion to thank those who have stood by the proposition so loyally until the end. Advertisers making the last two issues possible are:

GAZA ALWAYS HISTORIC CITY

Has Figured in Warfare Since Long Before the Birth of the Savior of Mankind.

The capture of Gaza by the British brought forward into the light of public interest an old, old city, scene of a thousand battles, veteran of a hundred wars, to whom, if such be possible, even the terrible Armageddon of today must come as only one more struggle in a long life of war. Incidentally, the fall of Gaza went far toward opening the road to Jerusalem to the English.

Gaza had not been taken by men of western Europe since it fell to the armies of Napoleon more than a century ago. It has always been recognized as a key point in any campaign in the Holy Land. Although it is hardly more than a big village today, surrounded by dead sand dunes, only redeemed from complete barrenness by a surrounding grove of beautiful olive trees, it has been fought for as though it were one of the precious cities of the earth.

Such indeed it was, in times past. In the days of the glory of the Philistines it was one of their principal cities, and that was many centuries before the birth of Christ. The Philistines took Samson to Gaza; and this was the city where that muscular hero tore down the gates. Even today there is a tomb in Gaza which is pointed out as his tomb, but speaking both literally and figuratively there is "nothing in it."

Gaza seems to have fallen to the British quite easily. In older times it was wont to put up a stiffer resistance. It baffled the full strength of Alexander the Great for 151 days. Later it was twice destroyed in warfare. The hosts of Islam captured it eight centuries ago, and held it, except for the brief triumph of the French, until the British victory.

Restricting German Activity.
Practically every Latin American republic, with the exception of Salvador and Mexico, has made plain its stand on the European war. The center of German activity in Latin America is currently reported to be in Salvador, but that country is so closely surrounded by republics which have either declared their allegiance to the allies, or have so plainly manifested their sympathies, that German agents in Salvador have been able to do little except prepare safe places on which similar agents, leaked out of other Spanish republics, may alight.

First real steps against the pro-German propaganda in Mexico were taken in New Orleans in November, when eight Mexicans, nominally representatives of the Felix Diaz revolutionary party, were arrested.

You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure.
If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germ that caused the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store, and get on the right treatment to-day. If you want special medical advice, you can obtain free by addressing Medical Director, 23 Swift Laboratory, Atlanta, Ga.

ATHENS ORGANIZES BOARD OF TRADE; W. T. SAUNDERS IS CHOSEN PRESIDENT

DELEGATION FROM THE DECATUR
BOOSTERS CLUB WENT TO THE
LIMESTONE CAPITAL AND AID-
ED IN ORGANIZATION.

STREETS TO BE PAVED

NEW EXECUTIVE DECLARES THAT
ONE OF HIS FIRST AIMS WILL
BE TO PROVIDE BETTER
THOROUGHFARES.

Athens, Ala., June 8.—(Special.)—
At an enthusiastic meeting of local
business men held here last night,
the Athens Board of Trade was or-
ganized, with the following officers:
W. T. Saunders, president.
W. L. Martin, vice-president.
Bruce Nelson, treasurer.
The election of a secretary was de-
ferred, as a paid-secretary will be
secured.
The organization was perfected
through the assistance of a delega-
tion from the Decatur Boosters Club,
headed by President H. L. Morrill, and
consisting of the following promi-
nent business men of the sister city:
J. R. Daniell, W. W. Fussell, W. E.
Crawford, Dr. F. R. Beason, Knox
Walker, J. H. McMath, T. M. Dix, W.
F. Reuther, E. J. Polhill, A. J. Jones,
D. M. Carr, W. E. Roper, F. S. Hunt,
H. L. Morrill, Jno. Y. McGee, J. C.
Gooch, W. A. Coppage.

The meeting was well attended,
about sixty of the leading citizens of
this city being present. During the
evening interesting talks were made
by T. M. Dix, Pat Brock, W. W. Fuss-
sell, J. R. Daniell, H. L. Morrill, of
the Decatur club, and W. T. Saun-
ders, Fred Wall and Dr. Simpson, of
Athens.

President Saunders, after his elec-
tion, declared that one of his first
purposes would be to pave the streets
of Athens. He will do this if he
"busts," he said.

The new commercial organization
is to be a member of the North Ala-
bama Chamber of Commerce.

WILSON TO STOP PENDING STRIKES

PRESIDENT WILL NOT TOLERATE
INTERUPTION WITH WAR
WORK.

(International News Service)
Washington, June 8.—President
Wilson today moved to prevent the
threatened strike of commercial tele-
graphers and to hasten an adjust-
ment of other pending labor difficul-
ties, chief of which are the street rail-
way strikes of several sections of the
country.

The executive summoned Secretary
of Labor Wilson for a Saturday con-
ference. It was learned the president
was determined there shall be no in-
terruption with war work and is pre-
pared to take drastic action. It is
understood pressure is being brought
to bear on Newcombe Carlton, head
of the Western Union, whose refusal
to recognize the jurisdiction of the
war labor board precipitated the
crisis. It is likely that he will be
summoned to the White House.

Noted Minister To Preach Tomorrow; At First Baptist

On tomorrow at morning and even-
ing services (11 a. m. and 8 p. m.)
Rev. A. J. Johnson, of the First Baptist

as a preacher of strength and will
be heard to advantage. A cordial in-
vitation is extended to all to attend.

SPEEDY TRIAL FOR O'LEARY PROMISED IF HE IS CAUGHT

(International News Service)
New York, June 8.—Speedy trials
and the extreme penalties will be
urged in the cases of the latest spy
suspects arrested here, it was an-
nounced today. The extreme penalty
may be death by hanging or 30 years
in prison. Five suspects are being
held without bail for trial. They en-
tered a plea of not guilty to the
charge of conspiracy to commit trea-
son. Two others, Jeremiah O'Leary
and John T. Ryan, are still fugitives
at large.

The principals named in the alleged
plots are:
Jeremiah A. O'Leary, prominent
American Sinn Feiner, now a fugitive
from justice on charges of espionage
violations for distribution of alleged
anti-draft literature in the magazine
Bull, of which he was formerly editor.
"Madame" Maria Von Kreischman,
a blonde-haired German woman of
striking appearance and about 40
years of age.

Carl Rodiger, who claims Swiss
citizenship, but who is alleged to
have come to this country from Ger-
many under a fraudulent passport.

Willard J. Robinson, of New York
aged 40, and under suspended sentence
for sedition "soap-box" oratory here
in behalf of Sinn Fein interests.

John T. Ryan, a Buffalo, N. Y., at-
torney, alleged to have been active in
spreading Sinn Fein propaganda in
this country.

Albert Paul Fricke, a Mount Ver-
non, N. Y., toy manufacturer, whose
affairs now are being administered
by Allen Property Custodian Palmer.
Emil Kipper, prominently identified
with Sinn Fein activities in New York
City.

Rudolph Binder and Hugo Schweit-
zer, both of whom died last year, are
the other two "citizen defendants"
named in the indictments.

The seven individuals listed are
charged with complicity in both con-
spiracies.

Republican Senators Would Protect Rich

(International News Service)
Washington, June 8.—Republican
senators were up in arms today over
the administration's new revenue
program laid down by Secretary Mc-
Adoo calling for an \$8,000,000,000 tax
levy upon the American people next
year. The administration's plan
would double the amount of revenue
obtained from all sources under ex-
isting law. It means that \$4,000,000,
000 must be added to the amount of
taxes now levied.

Ward Arraigned June Thirteenth

C. G. Ward, held in connection with
the death of "Red" Nelson, will be
given a preliminary hearing on June
13 before Judge F. M. Hamilton of the
Albany inferior court. Ward was ar-
rested at Huntsville and is now in
the Madison county jail.

U. S. RENOUNCES SPANISH TREATY

Paris, June 8.—The commercial sec-
tion of the Spanish ministry of for-
eign affairs has published a note
stating that the United States has re-
nounced the treaty of friendship and
general relations signed between the
United States and Spain January 3,
1902, said a dispatch from Madrid
today.

It was said the treaty will cease
to be in force May 8, 1919, conform-
ing with article three. This article
evidently deals with abrogation.

Washington, June 8.—No threats

citizens will sway this govern-

punishment upon German plott-

government will demand the sup-
reme penalty—death—if possible
under the law, and will decline to
compromise, no matter what
threats are made by America's
enemies. This was made very
plain by officials of both the de-
partment of justice and the state
department today.

State department officials today
had nothing to add to the origi-
nal letters exchanged with Ger-

Secretary Lansing to the German
demands. They do not look for
any answer from Germany and
do not expect that any reprisals

U-BOATS BELIEVED TO BE LYING IN WAIT FOR TRANSPORTS

THOUGHT THAT FOUR OR SIX
SUBMARINES COMPOSE THE
SQUADRON.

Washington, June 8.—Despite var-
ious reassuring statements that the
submarine menace is under control,
the German submarines now operat-
ing off the Atlantic coast continue a
very serious menace to navigation. Up
to the present time they have suc-
ceeded in keeping well out of the
way of pursuing squadrons and al-
though shots have been exchanged
with them, it can be stated positively
that not a single one of the undersea
craft has been sunk or captured.

Sifting down all the information
possible, it appears now that there
are four or six of these U-boats op-
erating off the coast. They are be-
lieved to have a base on some of the
innumerable coral islands off the en-
trance to the Gulf of Mexico. These
submarines are all equipped with
wireless so they can keep in touch
with the American vessels searching
for them. That they are attempting
to get American transports is con-
sidered certain. Reports that the
submarines chased an incoming
transport for half a day until the
vessel was rescued by destroyers,
reached here last night. The navy
department withheld all information
on the subject.

Coastwise and trans-Atlantic ves-
sels are now taking the same precau-
tions that they taken on the other
side.

AIR ATTACK PRECAUTIONS. (International News Service)

Washington, June 8.—Members of
congress were displaying considerable
interest today in the preparations for
warding off any possible air attacks
on Atlantic coast cities. While there
are many members of congress who
favor an investigation to determine
what steps for protection have been
taken by the war department, it does
not appear likely that any such ac-
tion will result.

(International News Service.)
Washington, June 8.—Gen. Pershing personally commanded the recent
American advance which resulted in the capture of Cantigny with heavy
German losses. This information was given to the senate military af-
fairs committee at their weekly conference with the war council today.
The council regarded the situation on the western front as materially
improved.

(International News Service.)
The mixed Franco-American forces that rolled the Germans' back in
the sector of Chateau Thierry have proved just as valiant in holding
their gains as they were in making them.
Powerful counter assaults were driven home by the Germans in the
sector but were all smashed by the allied fire and the attackers were
thrown back to their old positions.

Meanwhile, the French and Americans continue to extend their gains
and fighting still extends over a wide portion of the Marne salient. From
the Oise to the Marne the French have driven home vigorous thrusts
which advanced their lines.

(International News Service.)
Paris, June 8.—French aviators co-operated with the American ma-
rines in Thursday's attack northwest of Chateau Thierry, flying low
while marking the advance of the Americans and wirelessing to the gun-
ners where to put their shells.

(International News Service.)
Paris, June 8.—French and American troops have continued their
advance on the Marne front north west of Chateau Thierry, smashing
German counter attacks and inflicting heavy losses upon the enemy, the
French war office announced.

MARINES ADVANCE 2 1/2 MILES OVER SIX-MILE FRONT.

(International News Service)
With the American Army of the
Marne, June 7.—American marines
who are standing with the French be-
tween the German armies and Paris,
have extended their gains of Thurs-
day. They have advanced to a depth
of nearly 2 1/2 miles over a front of
about six miles northwest of Chateau
Thierry, capturing several villages
and 300 prisoners. Not one of the
marines has been taken prisoner.

A railway station on the right wing
of the line was the scene of the most
gruelling fighting. There the men fell
fast, but the enemy losses were very
great also. At no time nor on any
other front has the enemy massed
such a formidable array of machine
guns and the fighting developed into
a machine gun duel in the open. Our
troops drove back the Germans steady-
ly despite the hot fire. The Germans
hid behind boulders and anything
available and were able for the time
being with machine guns to check
our men, but as fast as a Boche show-
ed his head he was picked off by an
American sharpshooter. The major-
ity of the Americans were compelled
to depend upon the tall grass and
growing wheat for screen purposes.
The village of Boursches, three
miles northwest of Chateau Thierry,
was taken by a company of American
marines that had seen action in
Haiti.

When the officers of one company
of marines had been killed or disabled
a young corporal took charge of the
company, rallied the men and led
them up to the very muzzles of the
enemy guns, where the German gun-
ners were either killed or captured
and the guns turned against the Ger-
mans.

The fighting lasted for nine hours.
Our men found heaps of German dead
as they advanced.

During the battle an American
sergeant captured three Germans and
started back with them. Twelve oth-
ers threw up their hands and sur-
rendered.

Subs Are Sighted Off Florida Coasts

(International News Service)
Jacksonville, Fla., June 8.—Ar-
riving at an Atlantic port last
night, the steamer Aratho of the
Clyde line, reported that a Ger-
man submarine had been sighted
off the coast of Florida and that
several coastwise vessels had
made for the nearest port as fast
as possible.

The steamer Heisman arrived
at the same Atlantic port shortly
after the Aratho and reported
sighting the sea raider a distance
off the coast.

LANSING TO FIGHT DEVIL WITH FIRE.

Beelzebub is generally thought to be immune to ordinary offensive methods. It is popularly supposed that he would fight shy of steel traps and stay out of gunshot range. This general impression of the arch fiend has given rise to the old adage: "Fight the Devil with fire." Or in other words, use the same vigor and cruelty in tackling his Satanic Majesty that he latter employs in his campaigns of relentlessness.

Secretary Lansing is no doubt a believer in the exchange of tit for tat. In a statement given out at Washington he has made it plain that if the Kaiser carries out his threat to murder American prisoners of war and subjects of the United States now residing in Germany, unless Baron Von Rintelen is exchanged for a man convicted in Germany of being a Russian spy, that the United States will make reprisals by chopping off the heads of any number of the 1,000 German prisoners of war and 5,000 German civilians interned in the States. It is hardly possible that such drastic action will be necessary, but if it is, let the blame rest upon the shoulders of the barbarous Hun.

Rintelen, reputed to be closely related to the Kaiser, although the relationship is not publicly acknowledged, was sentenced to the Atlanta prison and fined a paltry sum, following his conviction as the master bomb plotter who had directed the activities of many subordinates in a campaign of destruction and frightfulness. Had he been shot at sunrise he would have gotten only part of what he deserved. It is this royal beast who has pulled the strings of influence at Berlin and caused the issuance of dire threats against the government that allowed him to keep a life that he had justly forfeited.

The American people will back Secretary Lansing up to the very limit, no matter how far he goes. The American people, civilized and humane though they are, fully realize that the only way to curb the atrocities of Berlin is by the employment of equally as effective methods. Already the Teutons have gained some advantage by their willingness to break humanity's laws. Every time they are allowed to do so, additional American lives are claimed as the price of their perfidy. From this time forth the American heart will be as stone, for the old law of self-preservation is still in force and effect. One American life is still worth more than the lives of all the legions of the Beast.

Change Notion About Calomel

NEW VARIETY CALOTABS IS PERFECTLY SAFE AND DELIGHTFUL.

With all of the liver cleansing and system purifying qualities of the old style calomel, but robbed of its sickening, griping and dangerous effects, Calotabs is destined to become the most popular of all home remedies, as it has already become the favorite of all physicians.

The new style calomel, called Calotabs, is perfectly delightful in effect. One tablet at bedtime, with a swallow of water—that's all. No nausea, no griping. Next morning you awake feeling fine, your liver active, your system purified and with a hearty appetite for breakfast. Eat what you please, there is no restriction of habit or diet.

Genuine Calotabs are never sold in bulk. Ask for the original, sealed package, price thirty-five cents. Your druggist recommends and guarantees Calotabs. (Adv.)

Rev. F. L. WEAR, D. D.

Rev. F. L. Wear, D. D., pastor of the Central Presbyterian church of Huntsville, will be one of the principal speakers at the Presbyterian conference.

Dr. Wear will speak Monday evening on "The Responsibility of the Church in the War," at the First Presbyterian church at 8 o'clock.

Lansing Threatens To Make Reprisals

(Continued from Page One.)

action on the thousands of Germans in this country.

Germany's threat and the answer of the United States were disclosed by the state department. In a note presented by the Swiss minister here, the Berlin foreign office proposed to exchange for Rintelen, Siegfried Paul London, a German-born naturalized American citizen, serving ten years in prison in Germany for acting as a Russian spy.

Notice was given that an answer to this proposal was awaited before putting into execution contemplated measures of reprisal against Americans in Germany because of failure of previous efforts to relieve Rintelen.

Secretary Lansing replied with a terse communication refusing to consider the exchange, and suggesting that, while the United States does not acknowledge the principles of reprisals occasioning physical suffering, it would be wise for Germany to consider that if it acts upon that principle, it inevitably will be understood to invite similar action on the part of the United States.

Point was given to the secretary's suggestion by a statement issued by the war department. It shows that 123 American soldiers have been located in German prison camps and 516 American civilians, including merchant sailors, interned in Germany, while there are some 5,000 Germans interned in this country, including 1,310 prisoners of war.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Theodore's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

THRIFT APPEAL IS MADE TO PEOPLE

URGED TO CONSERVE NOW AND AVOID GERMANY'S ERROR.

Montgomery, Ala., June 7.—(Special.)—The Council of National Defense, the advisory commission of the council and the Alabama Council of Defense have joined in an urgent appeal to citizens of Alabama to practice thrift and economy in all things in order that the consumption of raw materials essential to the conduct of the war may be reduced. It is pointed out that the enemy during the first years of the war used copper and brass without thought of the future. Now she is confiscating copper and brass door knobs. She thought, nothing of conserving materials. Now his subjects are wearing paper clothing.

Believing the people of Alabama realize the importance of conserving everything which will aid in winning the war, the three organizations have issued the following statement to the people of Alabama:

"The Council of National Defense and the advisory commission of the Council and the Alabama Council of Defense believe that a concerted effort for economy by the people of the nation will not only go far toward paying America's expense in the war, but will also reduce consumption of raw and manufactured materials essential to the conduct of the war."

"The councils urge all to refrain from unnecessary expenditures of every kind, and to bear constantly in mind that only one thing is now of real importance, and that is the winning of the war."

"The nation's resources in man power, money, transportation, foodstuffs, raw materials and fuel have already been subjected to heavy strain and it is the clear duty of every citizen to guard against increasing this strain by a single wasteful act. It is most creditable for every one—man, woman, boys and girl—to be economical in dress, food and manner of living. Every evidence of helpful self-denial on the part of all in time like this is most commendable."

"This war is more than a conflict between armies; it is a contest in which every man, woman and child can and should render real assistance. Thrift and economy are not only a patriotic privilege, they are a duty."

"COUNCIL OF NATIONAL DEFENSE"

"The Secretary of War, chairman.
"The Secretary of the Navy.
"The Secretary of the Interior.
"The Secretary of Agriculture.

190 Alabama Negroes Called To Colors

(International News Service)
Washington, June 8.—Provost Marshal General Crowder today issued a call for 1,200 men for training as machinists and chauffeurs at Valparaiso University. He also called for 263 colored men of grammar school education. Alabama will supply 190 on June 18 to be trained at Tuskegee Institute.

Eight Billions by Direct Taxation

Washington, June 7.—Secretary McAdoo has recommended in a letter to Chairman Kitchin of the house ways and means committee that the new revenue bill be drawn to raise \$8,000,000,000 by taxation, one-third of the estimated \$24,000,000,000 expenditure in the fiscal year 1919.
He also recommended that a war profit tax be established at high rate to be superimposed upon existing excess profits taxes; that the normal income tax on unearned incomes be raised, and that heavy taxation be imposed on luxuries.

THANKS.

On behalf of the campaign for War Savings Thrift Stamps, for several days services free of charge, I desire to thank John Green and Miss Bessie Transue for their courteous and effective work.

Margaret Clinton Shelton, Phone 682, Albany

PENNSYLVANIA RAILROAD PRESIDENT'S APPEAL.

"This is a time for plain living, sound thinking and hard working.
"Let us be leaders in ordering our every-day lives so as to help our country's cause."

Germany announces the capture of territory to the German people with as much acclaim as if each acre had been a gun, for Germany does not have to be told the value of potatoes. She, herself, has reduced potato production to such a science that with less than one-tenth of our area she produces five times as many potatoes as we do in the United States!

Nevertheless, with this immense potato supply, she does not let her potatoes go to her people, afraid that they will waste this valuable vegetable if she allows them to have too many at a time on hand.

Last winter in Berlin the potato ration per week per capita was seven pounds and ten ounces. Until the possibility of getting rich wheat supplies from Russia opened up, there was considerable agitation in Germany for a larger potato ration, for the German hausfrau knew if she could put plenty of potatoes on her table her family would never miss the lack of bread.

England, too, has learned that she cannot afford to slight this nourishing, if unbecomingly vegetable. Perhaps it's the Irish who have taught her that with plenty of potatoes she can bear her lack of meat and wheat cheerfully.

So England, like Uncle Sam, is doing all she can to encourage a greater production of potatoes and to teach her people to eat this vegetable freely in place of bread.

CORSBIE-SHERRILL.

Mr. and Mrs. J. H. Corsbie announce the marriage of their daughter Ethel to Mr. R. G. Sherrill, A. S. S. C. U. S. A. of Key West, Fla. June 7, 1918.

FLAG DAY, JUNE 14.

From department of interior, bureau of education:

"Flag Day has a special significance this year.

"For the first time in the history of America the flag is being carried by European countries by legions of fighting Americans."

P. P. Claxton, of the bureau of education at Washington, has suggested a simple program to be used at a flag raising. This pledge of allegiance to country is repeated. Miss Bassett, director of the community sing, will have charge of the program.

At the last meeting of the D. A. R. a committee on Flag Day publicity was voted. All ministers and organizations are asked to co-operate in the display of flags by all loyal American citizens.

PERSINGER-HIBBS.

Rev. and Mrs. Jesse Cole Persinger announce the marriage of their daughter Jessie Rowe to Dr. Henry Horace Hibbs, Jr. on Thursday, June the sixth, nineteen hundred and eighteen Birmingham, Alabama.

At Home
210 East Grace Street,
Richmond, Va.

The marriage took place at the home of the bride's sister, Mrs. P. O. McGlathery, her father, Rev. J. C. Persinger, performing the ceremony. Bride and groom are graduates of Columbia University, Mrs. Hibbs taking the degree of M. A. and Dr. Hibbs that of Ph.D. He is principal of the School of Sociology at Richmond, Va. Following the ceremony Dr. and Mrs. Hibbs left for Natural Bridge, Va., for a ten days' stay, after which they will be at home at Richmond, Va. The bride has hosts of friends here and at Hartselle, where she taught school the past year, who have an affectionate interest in this accomplished young girl.

NINTH GRADE W. S. S.

The Ninth Grade War Savings Stamp Society will meet at the Y. M. C. A. on Tuesday at 7:30. An excellent program has been arranged. Miss Godbey, who organized this society, will attend and probably the last time before entering the field service of her country.

Willie Felst Price, president.
Barrett Shelton, secretary.

Miss Jennie Davidson, of Birmingham, will spend the week-end with Mr. and Mrs. J. R. Nicholson.

Rev. and Mrs. W. L. Harwell, of Prospect, Tenn., were the guests Friday of Mr. and Mrs. W. L. Hatchett.

Mrs. S. V. Thompson arrived Friday for an extended visit to her daughter, Mrs. W. E. Spain.

Mrs. W. E. Spain, Jr. and little daughter are the guests of Mr. and Mrs. W. E. Spain.

H. T. Thurman and family will leave some time this week for a visit to New Orleans.

Miss Ruth Hughes has returned to her home in Elkhorn.

Mrs. Will Maness is recovering after an illness of two months.

Gladys Lambert and Ruby Stew are the guests of Athens relatives.

PERSONALS

Col. Joseph L. Hutton and E. E. McLemore were in Decatur, Ala., Thursday on business.—Columbia (Tenn.) Herald.

Judge John C. Eyster is at Cullman today on legal business.

Robert Binford, who has been a guest of his uncle, H. N. Binford, left yesterday for Birmingham to enter the service of his country as a marine. Mr. Binford has been chief clerk of the Southern Express Company at New Orleans and gave up his position to go "over there."

Says Take Liver Medicine For Sick Headache

It may seem a far cry from sick headache to sick liver, but we have the word of an eminent specialist for this. He says, also, that the use of headache remedies containing acetanilide or anti-pyrene is sometimes attended with great danger by reason of the depressing effect of these drugs upon the heart.

According to his theory, sick headache, aching limbs and that dull, sluggish, half-sick feeling are really a symptom of liver trouble and resultant constipation. Haven't you noticed that you suffer most this way when you are bilious or constipated?

A safe and sane remedy for sick headache and other symptoms of constipation and liver sluggishness is "333" Liver Tonic, a deliciously flavored preparation of the pure, laxative extracts of fruits, herbs and plants combined with Pepsin. It gives the entire digestive system a thorough and gentle cleansing, sweeping out the poisons and impurities which so often cause pain and suffering.

333 Liver Tonic is much different from other liver medicines in that it has such splendid tonic effect upon the liver, stomach and bowels. Its use may be discontinued at any time without bad effect.

You will do well to keep a bottle of this medicine handy at all times. Its timely use will prevent much sickness, suffering and expense. Genuine 333 Liver Tonic can be bought in big fifty-cent packages at Dillehay Brothers and other good drug stores. Do not be satisfied with a substitute. If your druggist hasn't genuine 333 Liver Tonic in stock, he can get it for you quickly.

ARMY AND NAVY
NEED TRAINED MEN

THOUSANDS OF EXPERT WORKERS WANTED IN CIVILIAN BRANCHES OF SERVICE.

MEAT CAREFULLY INSPECTED

Every Part of the Supply for Army Use Is Scrutinized. From Stock Yards to Mess—Desertions From Camps Due to Discouraging Letters.

(From Committee on Public Information.) Washington.—The civilian branches of the army and navy are in need of thousands of highly trained workers, and before the end of 1918 these branches must be increased by at least 20,000, according to the civil service commission.

The ordnance department of the army needs large numbers of mechanical engineers, draftsmen, chemists, and metallurgists. Thousands of inspectors are wanted to pass on the quality of ordnance, ammunition, and other supplies. For office-work statisticians, accountants, assistants in business administration, and specially trained clerks are needed.

The quartermaster corps wants several thousand examiners and inspectors, and passenger and freight clerks are needed. The signal corps is short of draftsmen.

The navy has an unlimited number of places for draftsmen, and a long list of positions for technical workers. Practically all branches of the service need stenographers, typists, bookkeepers, and clerks.

The army consumes about 2,000,000 pounds per day of fresh beef. This necessitates the slaughter daily of 4,000 cattle. Official inspectors scrutinize every part of this supply from the time it comes on the hoof to the abattoir until it vanishes from the mess tin of the soldier.

Inspection begins at the stock yards, where the living animals undergo the examination of an official for any evidences of physical defect which might be difficult of detection later. Where there is doubt the questionable animals are separated for closer examination. Where there is certainty of defect, the animal is rejected as unfit for food supply.

Next comes a rigid examination of the carcasses. Only when found "sound, healthy, and wholesome" is the meat passed as acceptable for food and duly branded with a nonpoisonous vegetable ink, "United States Inspected and Passed." The unfit carcasses are destroyed.

Fresh meats thus indorsed go forward in regular shipments, but those which are to undergo curing, canning, or manufacture into sausages, lard, oleomargarine, etc., are subjected to reinspection at each step. For these there is a final inspection just previous to their dispatch for army use. Samples are regularly collected for chemical analysis in the government laboratories.

When the meats arrive at the army stations they are again inspected either by inspectors of the bureau of animal industry or by veterinarian officers of the army. They must also obtain the approval of the officer of the quartermaster corps receiving them. And they undergo their final test when the soldier's immediate organization commander looks them over before he permits them to be served to his men.

Included in war department regulations regarding the employment of prisoners of war and interned enemy aliens are the following statements:

All classes of prisoners, excepting commissioned officers and such others as are physically not fit to labor, will be required to perform work necessary for their comfort or for the upkeep of their prison barracks. Interned enemy aliens will not be held for compulsory labor except as provided in this paragraph.

Prisoners of war, excepting officers, warrant, petty, and noncommissioned officers, may be required to work for the public service—they may be authorized to work on their own account. Under exceptional circumstances, when specially authorized by the secretary of war, they may, upon their written request, be authorized to work for private persons or for corporations. Petty and noncommissioned officers may be authorized to work on their own account, and, upon their written request, may be authorized to work in the same manner as other prisoners of war, except that they will be employed in a supervisory capacity only.

An order for labor will be regarded as a military command, and prisoners failing to obey such order will be punished accordingly.

When employed on work that is necessary for their comfort, or for the upkeep of the prison barracks in which they are interned, prisoners will receive no compensation. When the work is done for the government prisoners will be paid at a rate according to the work executed; when the work is done for other branches of the public service or for private persons the conditions of and the compensation for such work will be settled in agreement between representatives of said branches or persons and the adjutant general of the army.

Consider Quality

Service, rather than price should determine the economy of your every purchase. Every sort of merchandise is advanced in price. The natural inclination is to accept inferior quality because the cost is less.

Such is not true economy at any time; it is less so today. Quality has been our first consideration in selecting our summer stocks. We invite your inspection of the new arrivals on this basis, knowing that lasting satisfaction is of greater value than the slight price difference which inferior qualities would permit.

Men! Consider Your Summer Clothing Needs

You're going to need cool clothes before long. Summer comfort depends greatly on the way you're dressed. Be prepared when the real warm days come.

Men's genuine Palm Beach and Kool Cloth Suits that make hot weather endurable. Splendid styles and qualities at prices you'll like.

PARIS IS VISITED BY JACK COOLIDGE

LOCAL SOLDIER BOY SAYS THAT FRENCH CAPITAL IS "SOME CITY."

Jack Coolidge, local soldier boy, writing to his mother here, states that he is in Paris and that the French capital is "some town."

The letter follows:

May 11, 1918.

Dearest Mother and All:

I will write you all today. I think you all will receive this letter. I have written two or three letters since I have been in France. Do not know if you all received same or not, but it has been a long time since I got any mail, so a good sweet letter sure would be nice.

This leaves me all o. k. and am getting along fine. I like this place. All the people are so nice to us boys. We go by motions, as we just know a few words. But we are all learning and will soon be so we can talk to

anyone. We are in Paris and will be for some time, and it is some city, believe me, and just lots of places to go. We have good places to stay, so you need not worry about Jack, and do not think that I am sick or anything, if you are a long time between letters, for it is a long ways to you, so you see it will take some time for a letter to go. When you write tell me all for it is two months since I heard from home.

Where is George now; has he been called yet, and where did he go. When you write to sister give her my love; also my address and tell her to write me and all the folks. How is papa; tell him I send love and to take good care of himself. How is Kate? Give her my love and tell her to write. I am going to write to her today.

There is not a day I do not think of you all and would like to be with you. But I am glad that I am doing my part in France and am doing the best I can. But will be glad when we are all back in the good old U. S. A. again. For that is some place and it sure looks good from here, when you think about it. Well I will close with lots of love. Kiss all the kids for me and don't worry about

Jack. With lots of love for all, I am
Your loving son,
JACK.

Croix De Guerre For Lieutenant Flannery

School Mate of Father Sheridan Re- warded for Bravery.

Father Sheridan, pastor of St. Anne's Catholic church, has read with much interest of the awarding of the croix de guerre to Lieut. Walter F. Flannery, of Pittsburgh, Pa., his former class mate. The war cross was presented to the gallant soldier, who has distinguished himself for bravery in action, amid a shower of shot and shell. Father Sheridan was for a number of years a resident of Emmetsburg, Md., where he graduated from the same class with Lieut. Flannery in 1909.

FORCED CHANGE IN WARFARE

Work of Daring Air Scouts Has Eliminated All Possibility of Surprise Attacks.

The first war use of airplanes was for spying upon the enemy. Mounted patrols used to do this work. They would try to gain some height from which they could look down upon the opposing army and size up its forces. But the airplane proved far superior to any other form of scouting, because it gave the scout an unobstructed view of the surrounding country for miles and he could see just what the enemy was doing. He could see whether large forces of men were collecting anywhere for a drive at some particular point. He could locate the artillery of the enemy and discover his weak spots. And so it came along that there was a complete change in warfare. The surprise movements that used to play such an important part in former days are a thing of the past. No general of today can expect to spring a surprise on the enemy as long as there are enemy eyes in the sky.

Modern long-range guns are placed far behind the battle line. They may be as much as five or six miles behind their own lines, well concealed in some wood or back of a hill. The gunners cannot see what they are firing upon, but their aim is directed by a spotter in some observation post, such as a captive balloon or a tall tree. But the best observation post is one that can take wing and soar over the enemy during a bombardment. From such a post the spotter can see just what his own artillery is doing, and he can signal back when a shell goes beyond or falls short of the mark. Such airplanes are constantly prowling around in search of suspicious objects for the big guns to shoot at.—A. Russell Bond in St. Nicholas.

CARD OF THANKS.

We desire to thank our many friends for their kindness during the sickness and death of our husband and father. To Dr. Sherrill for his faithful attendance, and to those who sent florals and tendered the use of their automobiles, we beg to express our appreciation.

Dairy Cows Being Brought Into Ala.

J. P. Quinerly, of Auburn, Ala., passed through the city this week with two car loads of thoroughbred Jersey cattle, en route to Selma, Ala., where they will be distributed among the farmers and dairymen of that section. Included in this lot were 120 milch cows and 12 herd bulls.

These cows were purchased at Salem, Ohio, from the best herds in the state and will be sold to farmers at exact cost, plus transportation, which will bring an average price of about \$140 each, although there were several registers of merit cows in the lot that cost as much as \$250 each and come from the very best dairy blood.

The United States department of agriculture, through the dairy divi-

son at Auburn, is encouraging farmers to buy good cows in the South and it is through their co-operation that these cows are being brought into Alabama and resold to the farmers without profit.

Mr. Clopton, of the Decatur Creamery, stated that the same thing can be done for the farmers of this section of the state and that he will arrange to buy a car or several car loads in this way if the farmers and dairymen show an interest in the movement.

Anyone interested will do well to see Mr. Clopton and talk the matter over with him, and this should be done, as milk and its products will play a big part in feeding the nation through the present crisis.
